2.B *Discuss a Dog Park in Duncanville.*

Vice Chair Reginald Hurd discussed the possible location of having a Dog Park at Rotary Park. Councilmember Anderson stated Rotary Park is a good location and encouraged the Park Board to look into renting parking spaces for food trucks to help with the upkeep of the dog park.

Citizen Comments:

Phil Woodall – stated that a dog park is a need for the City but need build correctly; it encourages citizens to interact. There should be separation of large and small dogs.

Rita Morena – encouraged Council and the Park Board to provide a new study to ask the citizens on a preferred location and stated dog parks should be close to animal shelters.

Patricia Ebert – encouraged Council to look into allowing Food Trucks within the City before the dog park is established so the dog park can benefit from that aspect as well.

Sharon Fabrega – loves the idea of the City having a dog park and recommended keeping the larger and smaller dogs separate; Tri-Cities Animal Shelter would be a great source for input.

Mayor Gordon asked the Park Board and Staff to bring a plan back to Council.

2.C *Discuss Trail Improvements.*

Member Beth Farrell provided a draft of the suggested eight (8) mile loop that would require three (3) phases. Mayor Gordon questioned if the phases only required paint and signs to move forward. Ms. Farrell stated yes; areas in Phase One would connect to the future trails. The eight (8) mile loop would connect with the schools and parks.

Council agreed with the Park Boards plan. Staff will work with the Park Board to determine costs of feasibility.
